

Acrylics 

Display the beauty of your photographs inside and out. With the exception of the Pewter Acrylic, which is not transparent, the image you select is printed and adhered to the acrylic cover while the spine and back of your album is covered with any one of the non-exotic leather choices below. Enhance our Crystal Clear cover with text (names/date) or a monogram.

Aluminum / Copper

---

Combine our hand-cut, textured panels of copper and aluminum with any one of the non-exotic leather choices below, giving your album a one-of-a-kind look. Brushed Aluminum covers can be etched with an image, text, or monogram for a touch of personalization. The etching process is basically a laser that burns chemical into the metal which causes a black coloring that represents the image.

Custom Image 

Customize the cover of your Flush Mount Album with your own design. The design will be printed on the front cover and combined with the non-exotic leather of your choice for the spine and back. For the canvas cover, your image is printed on canvas and a coat of lamination is applied for protection. For the glossy cover, the design is printed on photographic paper and a coat of high gloss is added.
